

László Kővári

Senior Full-Stack Developer • Angular · .NET · 30+ yrs

laszlo.kovary@gmail.com
+36 70 321 4433
Budapest, Hungary

Software developer with over 30 years of experience across multiple programming languages, architectural styles and complex technical problem-solving. The constant across those years is architecture and judgment: choosing structures that hold up over time, upgrading and maintaining large Angular/Nx workspaces without interrupting delivery, and weighing trade-offs in regulated healthcare systems. I present complex ideas clearly to cross-functional teams, adapt readily, keep learning, and welcome constructive feedback.

PROFESSIONAL EXPERIENCE

2026.01 — **Campus Codeworks Zrt.** - Senior Full-Stack Developer
Building a modern Angular front-end framework on Nx architecture, with optional micro-frontend solutions for scalability.

2023.11 – 2025.12 **Asura Technologies Zrt.** - Senior Full-Stack Developer
Owned the front-end architecture decisions and led the Angular version upgrades of the Nx workspace. Ran a technical-debt programme — identified issues, raised them and fixed them: nested subscriptions, tree-shaking, a global wait spinner and global exception handling. Code review owner; interviewed candidates. .NET EF Core back end with microservices on Docker, Kubernetes and AWS.

2023.01 – 2023.10 **Nexon Kft.** - Senior Full-Stack Developer
Angular + .NET C#. Decision tree-based contribution calculations.

2015.05 – 2022.12 **SIS Software (Hungary) Kft.** - Senior Software Developer
Seven years on the All-in-One ASC solution used by 80% of US ambulatory surgical centers. Resolved critical domain-level dev-support tickets on a live clinical system, working directly with US customers. Led the Angular upgrades and drove the move from Java/Hibernate modules to Angular 2+ and .NET C#; code review owner. Scrum and ScrumBan.

2009.05 – 2015.04 **EKLSoftTrade Kft.** - Owner, Software Developer
Contractual partner of SISFirst. AE system-embedded module development, front and back end in Java with Hibernate.

2004.01 – 2009.04 **Amkai Kft.** - Application Developer
Acquired by SISFirst. Led a small group. AE embedded module and install system development, front and back end in Java.

2002.06 – 2003.12 **Source Medical Solutions Inc.** - Application Developer
Developed the Electronic Medical Record (EMR+) and AmkaiChart (AC) applications in Delphi.

1998.02 – 2002.05 **HIS Health Information Systems** - Application Developer
Built the first versions of EMR+ and AmkaiChart in Delphi; the company was acquired by Source Medical Solutions Inc.

1988 – 1998 **Earlier career** — Software Developer
Ten years of in-house development across healthcare, manufacturing and telecommunications: Elizabeth Hospital, HERUKON Clothing Inc., Zemplén Telecommunication Inc.

ON THE WEB

Nx micro-frontend dynamic federation · Micro-frontend module federation · Micro-frontend native federation · Micro-frontend Nx in Polyrepo · Next.js page · npm: form-validation-monitor · npm: microfrontend-platform-communication · Angular seed app · NuGet: ProfanityCommentsAnalyzer · Speaker, Angular Meetup · Android apps · LKovariHome ·

TECH STACK

Angular / TypeScript	11 y
Java J2SE	12 y
Delphi	9 y
Android	6 y
.NET C#	5+ y
EF Core C#	5 y
Microservices	2 y
Java J2EE	1 y

Also: Nx, micro-frontends, Docker, Kubernetes, AWS, Hibernate, SCSS, Bootstrap, Scrum / ScrumBan.
Earlier: MASM, Objective-C, C / C++.
Currently learning: Next.js (Zod, Prisma).

EDUCATION

SZÁMALK 1985–1988
Application programmer (professional superlative)

Industrial School 1983–1985
Electronic artificer — TTL digital ICs, analog circuits

Agricultural Technical College 1979–1983
High-school graduation

POST-GRADUATE STUDIES

- Pluralsight and Udemy courses (ongoing)
- Agile Boot Camp: An Immersive Introduction — ASPE-SDLC, certified by ICAgile
- Microsoft courses 2349BC, 2124, 2524B

AWARDS

- Leaderboard Winner — Q2 2022
- Caught at Your Best — Q4 2021, Q4 2016, Q4 2015
- Certificate, 20 years of service

LANGUAGES

Hungarian — native
English — mid-level
